*S*ituated on sought after Bedford Center Road in Bedford Hills is a backyard horse property that has the potential for a future horse owner to make it all their own. This property encompasses a small main residence built in 1740, a carriage barn from the 1900's with two foaling stalls, six-eight stalls, a tack room, and a legal barn apartment. The open and rolling 4.22 acres provide access to the renowned Bedford Riding Lanes.

There are endless possibilities with this property for someone with a vision, whether with horses or not. Converting the barn to a main residence and the current residence to a guest house, the property has the space for a pool and gardens.

Offering the joys of countryside living while being within five minutes of major highways and Metro North train station suits both the year-round and weekend homeowner. This is a wonderful opportunity to make this beautiful property into a special place for years to come.
